

SPIRENT GLOBAL SERVICES

POSITIONING

EDUCATION SERVICES

Maximize Your Investment. Ownership of any testing equipment represents serious capital investment. Ownership of Spirent testing equipment provides you with the most powerful and varied testing capabilities in the industry.

AVOID SYSTEM FAILURES

Maximizing your investment by taking full advantage of all Spirent products rich testing features clearly benefits your bottom line.

BENEFITS & VALUE

- Utilize full testing capabilities
- Minimize time to test
- Accelerate time to market
- Assure product and service quality
- Increase your competitive advantage
- Improve your team's effectiveness

COMPREHENSIVE GUIDANCE

Spirent offers training options so you can obtain comprehensive instruction on current and emerging technologies when and where you need it. Spirent instructors teach courses that are delivered off-site or on-site using proven instruction techniques.

Training offerings include:

- Instructor-Led Training—Master the latest testing techniques. Spirent's Instructor-led courses help students apply the latest testing methodologies and applications.
- On-Site Training—Bring the classroom to your business.
 On-site training greatly reduces travel expenses. You and your team will learn to fully leverage the latest testing methodologies and applications in your unique testing environment.
- Spirent-Site Training—Have the class at our Spirent factory in Paignton, UK. Getting away from your facility during training helps reduce stress and allows you to be focused entirely on the training event.
- Custom Training—Design a course to fit your requirements.
 Spirent's custom training programs are tailored to your company's needs so you are in control of what, when and where you learn.

TRAINING TOPICS AND DURATION

Training is provided on the following systems and it can cover any of the associated applications:

- GSS8000 Multi-GNSS Constellation Simulator
- GSS6700 Multi-GNSS Simulation System

Typical duration of the training is one to three days depending on the system, application, and features required. Please contact your Spirent representative to discuss your unique requirements.
